

mobile made easy.

## Top Ten Reasons to Mobilize with Syclo

### 10. Suite of prebuilt mobile applications...

SMART Mobile Suite is a comprehensive family of prepackaged and preintegrated products. Each is 80% pre-built for business processes such as work order and inventory management, asset audits and more.

### 9. ...built on an award-winning mobile platform

Syclo's award-winning Agentry™ platform is the foundation for all SMART applications. Agentry provides the framework to design, develop and deploy mobile deployments across the enterprise.

### 8. Mix and match devices to meet your organization's processes

SMART has been tried and tested on over 100 different devices to be truly device agnostic. It works on all leading PDAs, laptops, ruggedized tablets, RIM devices and more.

### 7. Work online, offline or occasionally connected

SMART replicates data on the device, so remote employees can work regardless of connectivity. Online, offline or occasionally connected, all business rules and validations are enforced.

### 6. Preintegration to all leading EAMs, ERPs, CRMs, SCMs and more

Agentry is an IBM-certified SOA framework that takes the pain and uncertainty out of systems integration. SMART products, built on Agentry, are preintegrated to back-end(s) like IBM Maximo, SAP, Oracle and more.

### 5. Mobile solutions that scale with records, users and/or transactions

Syclo mobile solutions fully scale to accommodate your organization's thousands of remote employees, asset records or transactions concurrently without any synchronization issues.

### 4. Over-the-air application updates

Transmit only updates in data back-and-forth from your organization's IBM Maximo system and its remote employees for fast synchronization without interruption to the user.

### 3. Security on the device, server and during transmissions

Syclo mobile solutions are trusted by many government agencies and contractors on projects where security is paramount. Security is built into the very core of Agentry and therefore, the SMART Mobile Suite products.

### 2. Multi-modal with built in support for leading peripherals

SMART is truly multi-modal and offers built-in support for leading peripherals including barcode, RFID, GPS, GIS, camera, voice, printers and more.

### 1. Mobility experts with strong references across industries

For over a dozen years, Syclo has refined and productized their mobile expertise in over 750 customer deployments worldwide to bring you the most experienced development team in the industry.
